

Dear Parents, Carers and Children,

RE: Forest School

Singlewell was overwhelmed with the funds collected by our parents following our Walk-a-thon FUNdraiser earlier in the last academic year. This has allowed us to plan for and prepare a suitable area on our school site and purchase the necessary tools and equipment.

I am now delighted to be able to offer Forest school sessions to Angelfish class in Term 1.

Forest School can be an enriching activity for children. By interacting with nature, your child will build skills including confidence, independence, language and communication and knowledge and understanding of the wider world. Activities will include problem solving to build habitats and dens and exploration of nature and materials.

It is essential that the children display sensible behaviour and obedience in order to participate safely. Any child who does not follow all of the safety instructions will not be able to participate in future Forest School lessons.

At Singlewell, we are passionate about the opportunities that Forest School provides your children to develop their social, emotional and mental well-being and support their confidence, which will enhance their class based learning. The dates are as follows:

Monday 18th September

Monday 25th September

Monday 2nd October

Monday 9th October

Monday 16th October

Please see the recommended kit list sent as a separate notification on the app, the children will need to bring suitable attire for the weather.

I look forward to an adventurous term ahead at Forest School.

Kind regards,

Miss Hassell.
