

☀️ Welcome to Year 2! ☀️

Dear soon-to-be Adventurers, I am so happy to welcome you into Year 2 class and I am excited to learn, laugh and make memories with you; I just know we will have a fantastic year!

Year 2 is a very special year. You will become more independent and resilient, challenge yourselves to try new things and continue to grow into confident and curious learners. This year we have some fantastic topics to explore! We will begin by thinking about 'I Belong...' where we'll celebrate what makes each of us unique and learn about our community. As the weather gets colder, we'll enjoy 'Wintery Nights,' before travelling back in time to discover the fascinating world of 'Kings and Queens.' In the spring we'll investigate 'Food, Glorious Food', finding out where our food comes from and how to stay healthy. Then we'll discover how amazing living things are during 'We Are Growing,' before ending the year with an exciting 'Pirate Adventure,' where we'll become explorers, use maps and uncover pirate secrets! There are lots of exciting experiences waiting for us too. One of the highlights of the year will be our trip to the National Maritime Museum in Greenwich, where we'll learn all about famous explorers, ships and pirates. We will also enjoy special school events, performances, celebrations and plenty of opportunities to learn outside the classroom. We will be reading lots of brilliant books together, writing exciting stories, poems and letters, carrying out fun science investigations, creating beautiful artwork and becoming confident mathematicians. We will also learn how to be kind, resilient and supportive friends who always try their very best. I know Year 2 will be full of smiles, curiosity and amazing achievements, and I can't wait to celebrate every success with you. Enjoy your summer holiday and I look forward to seeing your smiling faces in September! See you soon! Mrs Jones & Mrs Risby

LET'S GO
